From: A. Shalloway

Subject: Changes in NRAO's Data Communications Network

(Memo #20)

(Memo #21)

Attached is a revised (Rev. B) Specification A31800N1 and a revised (Rev. A) List of Components (memo from Shalloway to Marymor originally dated January 18, 1982).

The result of the revisions should change the Codex Purchase Order C06457 as follows:

<u>Item</u>	<u>Old Quantity</u>	<u>New Quantity</u>
2	7	8
9	6	7
10	1	0
16	3	4
22	3	4
23	2	1

This will be a reduction of \$700 for the two 66133's and an increase of \$840 for the four 66131's, making a resultant increase of \$140 in the purchase order.
