

Interoffice

National Radio Astronomy Observatory
Charlottesville, Virginia

April 21, 1981

To: 12m Working Group
From: H. Hvatum
Subject: Weekly Project Meetings

We shall hold weekly meetings every Tuesday, 1300 EDT (corresponds to 1100 MDT in Socorro and 1000 MST in Tucson) to discuss the 12m project. I expect the meetings will last less than one hour. The first meeting will be 1981 April 28, 1400 EDT.*

Since all sites need to be connected, we shall use the Darome Connection. The telephone number to call is 203-797-9020.

*Note time change to 1400 EDT for this meeting only.

Notice to Charlottesville participants: Because of a conflict with another regular Tuesday meeting, we shall hold the 12m meetings in the Ivy Road conference room.
