Subject: Update Cost Estimates for 12-m Project

We need to update the 12-m cost estimates. Could you please give me, in writing, your best new estimate of the costs to complete your part of the project. Use the financial report, memo #99, as a starting point. I would like to have your inputs next week in order to put together and distribute the complete new cost estimate before the 1981 December 1 meeting.
