

12 METER MILLIMETER WAVE TELESCOPE

MEMO No. 225

NATIONAL RADIO ASTRONOMY OBSERVATORY
Charlottesville, Virginia

April 29, 1983

MEMORANDUM

TO: 12-m Group

FROM: H. Hvatum

Since the 12-m telescope now is a working system, I think we can reduce the meeting frequency to once a month. I have set up a new schedule with times and telephone numbers (see below).

We need to think about closing the construction accounts sometime later this year. Could you please study memo #222 which is the latest financial report and see whether the balances left in various accounts are the right ones. I would like to discuss this at our next meeting.
