ADDITIONAL BASELINE TO INTERFEROMETER  
MEMO NUMBER 106

IN REPLY REFER TO  
6C  
3162  
Ser 32  
7 January 1980

Dr. William E. Howard  
Director,  
Astronomical Sciences Division  
National Science Foundation  
1800 G Street, N. W.  
Washington, D. C. 20550

Dear Dr. Howard,

It is requested that the National Science Foundation (NSF) proceed with planning and cost estimates for the expansion of the Green Bank Interferometer. This planning can be considered as part of the Memorandum of Understanding between the NSF and the U. S. Naval Observatory and thus no amendment to this Memorandum is necessary at this time. If, because of this planning process, the funding provided to NSF for FY80 is found to be insufficient, further funding will be made available if and when needed.

Sincerely,

Raymond A. Vohden
