To: Summer Student Lecturers

6 June 1978

From: Sarah Martin *ssm*

Subject: Lecture notes

This is to remind you that the Library maintains a collection of lecture notes from the summer programs for the use of students and lecturers. Your cooperation in providing a copy of your notes for the Library will be greatly appreciated. If you are using notes from a previous summer or for some other reason do not have notes, please let us know so that that information can be put in the index. Thank you.

My notes are the same as last year's.
Rick
