

## National Radio Astronomy Observatory

Green Bank, West Virginia

November 16, 1983

To: Addressee

From: J. R. Gibb,

Subject: VLBA Account Numbers and Project Numbers - Effective 10/1/83

A project number change is necessary in order to reduce the confusion arising from the similarity of the Electronics project numbers and the Construction in Progress account numbers, also the Engineering drawing numbers. Fiscal will adjust all the numbers that are presently in the system.

The revised numbers are as follows:

<u>Account Number</u>	<u>Description</u>
13400	VLBA Central Site
13401	VLBA Site 1 (Location Name)
13402	VLBA Site 2 (Location Name)
13450	VLBA Shared Systems

13401 through 13449 - Description will be assigned at a later date.

The Object Class location code will be 5 - Example: 530 - Materials and Services

<u>Project Number</u>	<u>Description</u>
51000 - 51999	Site
52000 - 52999	Antenna
53000 - 53999	Electronics
54000 - 54999	Data Recording
55000 - 55999	Monitor & Control
56000 - 56999	Processor
57000 - 57999	Post Processing
58000 - 58999	Miscellaneous
59000 - 59999	Project Management
60000 - 60999	Common Costs

In addition, the last ten numbers of each series are to be set aside for common usage items as follows:

5X990	Salary/Wages
5X991	Personnel Benefits
5X992	Travel
5X993	Misc. Materials/Services
5X994 through 5X999	Unassigned

The following project numbers have been allocated to Electronics:

<u>Project Number</u>	<u>Account Number</u>	<u>Description</u>
53000	13400	Test Equipment
53100 - 53199	13450	Feeds
53200 - 53299	13450	Front-Ends
53300 - 53399	13450	LO/IF
53500 - 53599	Site (Dependent)	H Maser
53600 - 53699	Site (Dependent)	Radio Link

Project Numbers for feeds and front-ends are as follows:

<u>Frequency</u>	<u>Feeds Project Number (Acct. 13450)</u>	<u>Front-Ends Project Number (Acct. 13450)</u>
Common *	53100	53200
.327	53101	53201
.610	53102	53202
1.5	53103	53203
2.3	53104	53204
5.0	53105	53205
8.3	53106	53206
10.7	53107	53207
15	53108	53208
23	53109	53209
43	53110	53210

\*"Common" covers common equipment, bias circuits, temperature monitors, i.e., general equipment not for a specific frequency.

Commercially obtained test equipment for all VLBA Electronics projects should be charged to Project 53000, Account Number 13400.

This memo supersedes memo from Fiscal dated September 19, 1983 and M. Balister's memo dated November 11, 1983.
