

National Radio Astronomy Observatory

Charlottesville, Virginia

March 1, 1984

To: VLBA Coordinating Committee and Distribution below

From: Bill Porter

Subject: Antenna Contract Selection Committee

Attached is a memo from Dr. Roberts designating the members of the VLBA Antenna Contractor Selection Committees.

The chairman of each committee should schedule an initial meeting prior to the antenna pre-proposal conference now set for April 9 and 10, 1984, in Charlottesville. The purpose of the initial meeting is to establish the criteria and methodology which the committee intends to use in its proposal evaluation process.

The committee members should plan to be at the pre-proposal conference, and the chairmen should be prepared to respond to questions regarding their committees work.
