Telex 675425 CALTECH PSD, Telecopier 213-796-8751

To: VLBA Correlator Working Group Date: 18 Nov. 1983

From: Martin S. Ewing

Subject: VLBA Correlator Meeting Schedule

We will begin a local biweekly series of VLBA technical meetings Wednesdays at 14:00. In our first sessions, we will discuss the overall project goals and try to define the work we need to carry out early in the project.

#### LOCAL VLBA CORRELATOR MEETINGS

Date	Time	Location
23 Nov.	14:00	112 E. Bridge
7 Dec.	14:00	112 E. Bridge
21 Dec.	14:00	112 E. Bridge

Larger ("global") meetings, involving NRAO people and others who are interested in the project, will be held monthly. The January meeting will be coincident with the Design Review Meetings currently scheduled for January. In February and March we are tentatively planning more-or-less formal reviews of the Haystack Mark III and JPL/CIT Block II correlators. These will interrupt the global meeting schedule.

#### GLOBAL VLBA CORRELATOR MEETINGS

Date	Time	Location	Telephone
13 Dec.	10:30 PST	112 E. Bridge	203-797-0901
16-17 Jan.	---(Charlottesville Review Meeting)---
