1. Shipment of REC 1 and DAR 2

The recorder and DAR 2 with formatter were shipped 2 November 1987 and are expected to arrive at the VLA site before 16 November 1987. Results of recorder tests are in Acquisition Memo No. 95.

2. Recorder Design Review

After much discussion it was decided that the review will be held at Haystack in the last week of January 1988 by which time REC No. 2 should be complete.

3. Parity Error Rate

The relation between parity error rate and actual bit error rate was studied by Bill Petrachenko and written up as an internal memo. This study will be reissued as a VLBA Acquisition Memo.
