MEMORANDUM

TO: VLBA Committees  
FROM: A.H.Bridle  
SUBJECT: CLBA Technical Subcommittee Chairmen

At the VLBA Coordination Meeting on 11 February Ken Kellermann suggested that the names of the Chairmen of the various Technical Committees of the Canadian Long Baseline Array be circulated, to facilitate liaison with the Canadian design effort. A list of addresses and telephone numbers of the Canadian technical Chairmen follows. The CLBA design was supervised by a Planning Committee, in consultation with a set of technical sub-committees. Full lists of the sub-committee memberships are given on p.123 of the CLBA Planning Committee's report, which was distributed by the Canadian Astronomical Society about two weeks ago. Further copies of this report can be obtained from Ernie Seaquist at U. of Toronto or John Galt at DRAO. I also have a small number of spare copies in Charlottesville.

ADDRESSES AND PHONE NUMBERS OF CANADIAN TECHNICAL CHAIRMEN:

Main CLBA Planning Committee: E.R.Seaquist  
Department of Astronomy  
University of Toronto  
Toronto, Ontario M5S 1A7  
(416)-978-3146

Technical Sub-committees (alphabetical):

Antennas: T.H.Legg  
Herzberg Institute of Astrophysics  
National Research Council  
100 Sussex Drive  
Ottawa, Ont. K1A 0R6  
(613)-593-6060

Array Control, Communications, Recorders:

J.L.Yen  
Dept. of Electrical Engineering  
University of Toronto  
Toronto, Ont. M5S 1A4  
(416)-978-8756

Configuration :

T.H.Legg  
Herzberg Institute of Astrophysics
