SUBJECT VLBA Correlator Memo Series

As some of you already know, I have established a new series of correlator memos. These memos will contain material of greatest interest to the correlator builders, but anyone is welcome to read them.

If you want to be on the correlator mailing list, please return the coupon below to me. (Note that a list of titles of the correlator series and other specialized series will be distributed to the general VLBA list.)

Return to: M. Ewing, Caltech 105-24, Pasadena, CA 91125
